## PATIENT EDUCATION

LANGUAGE **ENGLISH** SPANISH

Access to more than 150 Patient Education handouts, in both English and Spanish, from the National Cancer Institute (NCI) Physician Data Query (PDQ) database. The PDQ database contains peer-reviewed, evidence based cancer information summaries on a wide range of cancer topics. These summaries are written with the non-clinical patient in mind to aid in the explanation of diagnosis and treatment. Please note that upon clicking on any of the links below a new tab will open and you will be taken to the the NCI website.

## 개인화 기능

The screenshot displays the LWW Health Library Oncology Collection homepage. At the top, the LWW Health Library logo is visible. Below it, a dark blue navigation bar contains the links 'TEXTS', 'UPDATES', and 'CANCER'. A light blue banner below the navigation bar reads: 'Sign in with a personal account to get access to Health Library outside of Chonnam National University, Dental Science Library free for 90 days. Learn More'. Below this banner are three buttons: 'Create a free personal account', 'Sign in', and 'Create a Free Personal Account'. A red arrow points from the text '사용자 개별 어카운트 셋팅' (User Individual Account Setting) to the 'Create a Free Personal Account' button. Below the banner is a search bar with the placeholder text 'Search Oncology'. In the center, there is a blue circle with the text 'OR' and the word 'Browse' below it. Below 'Browse' are four buttons: 'TEXTS', 'UPDATES', 'CANCER TYPES', and 'PATIENT EDUCATION'. At the bottom, the 'ONCOLOGY TIMES' logo is displayed with the tagline 'Online First & Online Only Articles'. The Wolters Kluwer logo is in the bottom left corner. A green overlay on the right side of the page shows the 'Sign in with a personal account' section, which includes the text: 'Sign in with a personal account to get access to Health Library outside of Chonnam National University, Dental Science Library free for 90 days. Learn More'. Below this text are two input fields: 'Sign In' and 'Password'. A 'Sign In' button is located to the right of the 'Password' field. Below the input fields are two links: 'Forgot password?' and 'Create a Free Personal Account'. At the bottom of the overlay is a 'Sign-Out' button.

In 2012, an estimated 226,870 women and 2,190 men will be diagnosed with breast cancer in the United States [1]. It is estimated that 1 in 8 women will be diagnosed with breast cancer in their lifetimes. Beginning in the late 1990s, a shift in the incidence of breast cancer in the United States was noted. The steady increase in breast cancer diagnoses seen in the 1950s started to decline in 1999 and continued to decline into 2003. The decline in the annual incidence between 2002 and 2003 was limited to women over 50 years of age. Whether the declining use of hormone replacement therapy following publication of the Women's Health Initiative study results, the utilization of mammographic screening, and earlier diagnosis of disease, or whether a combination of these factors, explains this trend continues to be an area of investigation. Mortality from breast cancer has been steadily declining since 1990, at a rate of 3.1% per year in women under 50 years of age and 2.1% per year in older women [1]. Still, over 40,000 women will succumb to breast cancer this year, making it second only to lung cancer.
